

SCHOOL SECURITY RISK

An unparalleled combination of insurance and risk management protection for your school division.

The increasingly dangerous and violent threats that our schools face every day force the need to focus more intensely on how our school staff and students are protected. With the increasing number of lawsuits, school violence, and security threats, this is a complex and complicated coverage challenge for all school divisions.

Our Solution

Our School Security Risk program deals with the financial and human challenges of such incidents and potential subsequent litigation, provides preventive and crisis-management advice from security experts, and gives access to crisis-response consultants in the event of a security incident.

While there is no guarantee of avoiding a violent or serious security-related incident, this program enables proactive planning and helps demonstrate to the school community that school administrators are genuinely concerned about school safety, are accountable, and have the best interests of the students, staff, and community at heart in managing a serious crisis. This program also provides financial protection and access to consulting resources when needed.

Benefits to You

Covered events are numerous, but include mass casualty, disappearance, deadly threats, specific damages to school property, disruption of computer systems, extortion, hijacking, hostage taking, and emergency evacuation.

This program extends to all school divisions within our membership for all their school board members, administrators, employees, students, parents, family members, volunteers, and alumni while on premises attending or participating in an activity organized by the school division.
